

Schedule M IL-1040 Instructions

General Information

What is the purpose of Schedule M?

Schedule M, Other Additions and Subtractions for Individuals, allows you to figure the total amount of additions you must include on Form IL-1040, Individual Income Tax Return, Line 3 and subtractions you may claim on Form IL-1040, Line 7.

May I subtract my out-of-state income?

No, you may not subtract your out-of-state income. However, if you are filing as a resident or a part-year resident, you may be allowed to take a credit against Illinois Income Tax for income tax you paid to another state. See the instructions for Form IL-1040, Line 17, and Schedule CR, Credit for Tax Paid to Other States.

What other income is not allowed as a subtraction?

You may not subtract anything that is not listed on Schedule M. For example, you may not subtract

- unemployment compensation. Unemployment compensation included in your federal adjusted gross income, except railroad unemployment, is fully taxable to Illinois.
- gambling losses. Illinois does not allow a deduction for gambling losses.
- your federal itemized deductions from U.S. 1040 Schedule A, Itemized Deductions.
- any wages reported on your federal return. If you believe the wages reported on the Form W-2, Wage and Tax Statement, you received from your employer are incorrect, you must

obtain a corrected Form W-2 or a statement from your employer, on company letterhead, stating that your Form W-2 was incorrect. We will not accept a letter from you or your tax preparer.

What must I attach to Form IL-1040?

If you enter an amount on Form IL-1040, Line 3 or Line 7, you **must** attach Schedule M and any other required documentation listed in the "Step-by-Step Instructions" of this schedule to your Form IL-1040.

Write the smaller of

- the amount of deductions you claimed for amounts contributed to an Illinois college savings plan, minus any amount recaptured on Line 7 for this year and any deductions recaptured in prior years for that plan, or

- “What if I have distributions from money market trusts (mutual funds)?”

Tip Mutual fund distributions

Include the entire amount of federally taxed distributions received from mutual funds investing exclusively in U.S. government obligations. If the mutual fund invests in U.S. government obligations and non-exempt obligations, your deduction is the distribution received from the mutual fund attributable to the U.S. government obligations, as determined by the mutual fund. If the mutual fund does not provide this percentage amount, multiply the total distribution by a fraction. The numerator is the amount invested by the fund in exempt U.S. government obligations, and the denominator is the fund's total investment.

Note This subtraction is the amount net of any related bond premium amortization.

Note Savings bond interest that is not included in your federal adjusted gross income is **not an allowable subtraction**.

Note If you received a distributive share of a subtraction for U.S. government obligations from a partnership, an S corporation, a trust, or an estate, include that amount on Line 13.
